## Relevant Experience

### SAIEngine - Custom Game Engine

January – April 2026

*Sole Developer*

Ann Arbor, MI

- Created a custom, flexible game engine from scratch using a C/C++ backend
- Used SDL3 for multi-platform rendering, input management, audio playback
- Used GLM for efficient vector math. used FluidSynth for lightweight audio synthesis and management
- Made scriptable using Lua via LuaBridge, follows Unity-style component and scene architecture

### Way of the Cards

February – April 2025

*Game Project - Developer*

Ann Arbor, MI

- Developed a game from scratch in 6 weeks using Unity Engine
- Designed custom systems, data structures in C#, optimized to run effectively
- Managed project assets, deadlines, etc. using Git/GitHub, Atlassian (Jira, Confluence, Bitbucket), and Google Suite

### WolverineSoft Game Jams

March 2022 – Present

*Game Project - Developer*

Ann Arbor, MI

- Created playable games with a team within a 48-hour time limit
- Made a Nintendo DS game using C and had it run on a real Nintendo DS console
- Worked with Unity Engine (C#), GameMaker Studio, Love2D (Lua), PICO-8 (Lua), Git/GitHub

### State of Michigan Department of Technology, Management, and Budget

June 2024 – Present

*Internship - Information Technology Student Assistant*

Detroit, MI

- Administrated server and internal website access across departments
- Created and managed certificates in Windows Server to be used by integral state-side services
- Trained in NIST, MiSAP 2.0/Keylight, Security Accreditation

### Flagstar Bank

May – August 2023

*Internship - IAM Analyst Intern*

Troy, MI

- Managed and maintained application entitlements and access groups via RSA and CyberArk
- Managed MFA and application access for new users from Signature Bank via Duo and ServiceNow
- Interfaced with business leaders to moderate entitlement maintenance

## Leadership Experience/Extracurricular Activities

### Video Game Music Club

January 2022 – August 2024

*President*

Ann Arbor, MI

- As president, I managed weekly meetings, club interest, funding, and event participation for the club

### WolverineSoft

January 2022 – December 2023

*Community Manager*

Ann Arbor, MI

- As Community Manager, I handled all planning related to events such as game jams, weekly meetings, social events, and locations for studio meetings. I also managed club relations, hosted collaborative events with other game dev-adjacent organizations, booked rooms around campus when necessary, and fostered member morale and participation
