Relevant Experience

SAIEngine - Custom Game Engine

January – April 2026

Sole Developer

Ann Arbor, MI

- Created a custom, flexible game engine from scratch using a C/C++ backend
- Used SDL3 for multi-platform rendering, input management, audio playback
- Used GLM for efficient vector math. used FluidSynth for lightweight audio synthesis and management
- Made scriptable using Lua via LuaBridge, follows Unity-style component and scene architecture

Way of the Cards

February – April 2025

Game Project - Developer

Ann Arbor, MI

- Developed a game from scratch in 6 weeks using Unity Engine
- Designed custom systems, data structures in C#, optimized to run effectively
- Managed project assets, deadlines, etc. using Git/GitHub, Atlassian (Jira, Confluence, Bitbucket), and Google Suite

Instagram and Search Engine Clones

July – August 2026

Class Projects - Developer

Ann Arbor, MI

- Created a fully-functioning Instagram clone with posting/liking/commenting, profile management, dynamic webpages, and secure database management
- Created a fully-functioning Google clone with secure database access and efficient retrieval, using MapReduce
- Practiced dynamic HTML/CSS, JS, Python, Jinja, SQL, TypeScript, Flask, ReactJS, jQuery, and AWS Deployment

WolverineSoft Game Jams

March 2022 – Present

Game Project - Developer

Ann Arbor, MI

- Created playable games with a team within a 48-hour time limit
- Made a Nintendo DS game using C and had it run on a real Nintendo DS console
- Worked with Unity Engine (C#), GameMaker Studio, Love2D (Lua), PICO-8 (Lua), Git/GitHub

State of Michigan Department of Technology, Management, and Budget

June 2024 – Present

Internship - Information Technology Student Assistant

Detroit, MI

- Administrated server and internal website access across departments
- Created and managed certificates in Windows Server to be used by integral state-side services
- Trained in NIST, MiSAP 2.0/Keylight, Security Accreditation

Leadership Experience/Extracurricular Activities

Video Game Music Club

January 2022 – August 2024

President

Ann Arbor, MI

- As president, I managed weekly meetings, club interest, funding, and event participation for the club

WolverineSoft

January 2022 – December 2023

Community Manager

Ann Arbor, MI

- As Community Manager, I handled all planning related to events such as game jams, weekly meetings, social events, and locations for studio meetings. I also managed club relations, hosted collaborative events with other game dev-adjacent organizations, booked rooms around campus when necessary, and fostered member morale and participation
